

Verdun

Verdun is the first multiplayer FPS set in a realistic First World War setting. The merciless trench warfare offers a unique battlefield experience, immersing you and your squad into intense battles of attack and defense.

The game takes place on the western front between 1914 and 1918, in one of the bloodiest conflicts in world history. The developers were inspired by the infamous Battle of Verdun France in 1916. The game offers 3 distinct game-modes; Frontlines, Attrition and Rifle Deathmatch. Also many historically accurate features are included such as realistic WW1 weaponry, authentic uniforms and maps based on the real battlefields of France and Belgium.

The Frontlines game mode is unique in its tactical complexity. The realistic trenches are challenging to fight in and require tactical cunning to capture and defend. The Entente and Central Powers strive to gain control of frontline sectors. One battle you're rushing the enemy trenches during an offensive battle in order to gain ground. In another battle you might be defending your recently conquered ground against an enemy counter-attack.

Players can choose to be part of one of the many squad-types in the game, each of whom have their own distinct tactical role. By working together with your friends, you can earn experience that improves the power and versatility of your squad. As you gain more experience fighting and get promoted in rank, you also earn Career Points which you can use to unlock specializations, weapons and equipment.

In the Attrition game mode, the Entente and the Central Powers are pitted against each other in a single battle. Each side has a number of tickets which represents the amount of manpower they have. When a player is killed and respawns, a ticket is deducted from the side who the player belonged to. When a side has no more tickets, players of that side cannot respawn.

The Rifle Deathmatch is a free-for-all game mode, where all players are pitted against each other in a thrilling contest of skill using only bolt-action rifles.

Verdun key features include:
